THURSDAY, JULY 29, 1897.

ALL of the old Territorial officials  
have resigned.

THE tariff bill was signed by the  
President Saturday.

THE Fifty-fifth session of Congress  
adjourned Saturday.

A RECENT gold strike in Peru is  
said to eclipse the Klondyke find.

GLADSTONE celebrated his fifty-  
eighth wedding anniversary Monday.

The value of the peach crop of  
Missouri is estimated at \$20,000,000.

In the past six months the farmers  
of the State of Nebraska have paid  
off a mortgaged indebtedness of over  
\$28,000,000.

JOAQUIN MILLER, the poet of the  
Sierras, has been infected with the  
gold fever again and is on his way to  
the Klondyke.

THE beauty of the Alaska gold  
fields is that up there the poor get  
richer and the rich (unless they work  
themselves) get poorer.

It has been discovered that hogs  
fed on corn exclusively are far more  
liable to die of hog cholera than those  
reared on a varied diet.

THE pension office in Washington  
is the largest brick building in the  
world. There are over 10,000,000  
brick used in its construction.

THE gold fever is as prevalent now  
as it was in 1849. The depopulation  
of Coast cities and towns is prevented  
only by the limited facilities for reach-  
ing the Alaska gold fields.

The city of Chicago has an ordi-  
nance requiring every bicycle owner  
to pay one dollar for each wheel  
owned, and the funds arising from this  
tax goes to the improvement of the  
streets of that city.

THE man Tupper, who attempted at  
Los Angeles to smuggle a revolver  
into the cell of the train robber, Kid  
Thompson, received five years in the  
penitentiary at Folsom. It will not  
do to tamper with jail inmates.

THE combined wealth of John D.  
Rockefeller has reached the enormous  
amount of \$240,000,000 and is in-  
creasing at the rate of \$15,000,000  
per month or \$50,000 a day, and yet  
he is not a happy man.

THE Japanese Minister at Washing-  
ton hints strongly of something worse  
than a diplomatic "scrap" regarding  
the annexation of Hawaii. The pos-  
sibility of the "incident" going be-  
yond a diplomatic war does not seem  
to worry Uncle Sam.

THE Grand Lodge of the I. O. G. T.  
met in Prescott last week and had a  
very enjoyable time. The only inci-  
dent to mar the pleasure of the gather-  
ing was an insult in the form of an  
invitation extended by an Arizonian to  
the officers of the assembly to sample  
some choice wine, which he had  
thoughtfully saved up for them.

THREE vessels—the Normania from  
Hamburg, the Paris from Southampton  
and the Umbria from Liverpool—  
entered their stock of goods at the  
custom house in New York a few  
hours too late to escape paying the  
new duties of the Dingley bill. The  
sum of \$900,000 was collected off these  
three vessels. Under the Wilson law  
\$600,000 would have paid the tariff  
duties. This shows the relative differ-  
ence in the two bills.

It is reported that Whitelaw Reid  
will take the portfolio of State, and  
that John Sherman will resign on  
account of failing health. The "old  
Roman" is very sick in New York, while  
Reid is on an ocean flyer on his way  
to this country as fast as steam can  
carry him.

A CRISIS is approaching in the situa-  
tion of the miners' strike in Pennsyl-  
vania. The State is taking a hand  
and is sending armed bodies of men  
to the seat of trouble to protect any  
miners who may show a desire to go  
to work without permission of the  
miners' officials.
